

NON-LICENSED WORK WITH ACM'S THE CONTROL OF ASBESTOS REGULATIONS 2012

The Control of Asbestos Regulations 2012, since November 2006, include the duty that employers shall provide appropriate training for all workers who are likely to be exposed to asbestos. The Regulations include three levels of training which should be given to employees, this includes; training for non-licensable asbestos work, persons requiring this type of training would include those whose work will knowingly disturb ACMs, such as maintenance workers, refurbishment workers and their supervisors;

The following is a list subjects that will be covered in the 1 ½ day training session in non-licensable works (this course also includes asbestos awareness):

Topics covered include: *(Based on One Day, Previous Asbestos Awareness Training)*

- Asbestos Awareness (Previously obtained within the past 6 months)
- Emergency procedures (EM1)
- Use of a Class H Vacuum (EM4)
- Control measures used on site for dust suppression (EM5)
- Use and selection of the correct PPE and RPE (EM6)
- Cleaning down the work area (EM7)
- Decontamination (EM8)
- Correct waste handling on site (EM9)
- Practical Training, Use of PPE, Control Measures, Decontamination etc.

The course can be held at your own premises; the maximum number of delegates we recommend 12 per session.

Course timings are as follows:

09:00 am – 4.00 pm - Summing up any questions

Please note you MUST have undertaken UKATA asbestos awareness training in the previous six months to undertake this course in one day
