

ASBESTOS AWARENESS PROJECT MANAGERS

This course is designed for Site Managers and Project Managers to gain a greater understanding of the asbestos removal on their sites and ensure that the contractors selected and appointed are undertaking the work in accordance with the Control of Asbestos Regulations 2012. Asbestos removal works can be complex and the aims of this two day course is to provide that understanding to manage the contractors from inception to completion. This course combines the theory and practical elements of site assessments, plans of work, on-site auditing and documentation on completion.

A pre-requisite for attending this training course would be to have completed (online or face to face) Asbestos Awareness within the past 12 months.

The following is a list of subjects that will be covered in the 1 day training session in Asbestos Project Management (this course DOES not include Asbestos Awareness):

- **Review of Asbestos Awareness (TNA based);**
- **Legislative requirements on building owners and employers;**
- **Asbestos Surveys and the Survey Report**
- **Identification & appointment of the correct contractor**
- **Assessments and Plans of Work**
- **Site Set up**
- **Asbestos control measures**
- **Personal Protective Equipment (inc. RPE)**
- **Air Monitoring (including CORO)**
- **Asbestos Waste Management and Removal**
- **Site Audits and Management**

The course can be held at your own premises; the maximum number of delegates we recommend are 12 per session.

Course timings are as follows:

9:00 am – 4.00 pm

**On completion the successful delegate will be awarded the
“Asbestos Awareness for Project Managers Certificate”**
